**(b) Future Outlook of the Market:**

India's GDP growth has picked up with the easing of recession in the West. It is expected to be above 8% for the F.Y. 2011. Inflation is expected to be around 5.5% (end year); however there are upside risks to the estimate. Normalization of the monetary policy has begun with RBI hiking interest rates to contain inflationary expectations. RBI is likely to hike another 50 - 100 bps over the course of the year as corporate growth improves and developed economies stabilize. RBI has adopted a pro-growth policy rather than aggressive tightening, keeping in view the probability of double dip recession in the West and debt woes of Euro zone countries. This policy stance provides ample opportunities for growth revival in the economy. The fiscal deficit is expected to be around 5.5%. The high Government borrowing program in view of RBI's less accommodative monetary policy, high inflationary expectations and high demand for corporate credit is a challenge. However, the disinvestment program and better than expected 3G spectrum auctions are expected to help Government finances.

Indian equity markets are currently fairly valued. They are trading above the average earning multiples as compared to history. Overall, our equity outlook is cautiously optimistic in the medium term. However, global macro events in the form of a double dip in the West or sovereign default risk and local events in the form of growth shocks can lead to material corrections in the current setup.

### 1. EDELWEISS ELSS FUND

Notice is hereby given that the benchmark of Edelweiss ELSS Fund will be changed from BSE 500 to #S & P CNX Nifty w.e.f. June 1, 2009. “The Benchmark for E.D.G.E. Fund will be S & P CNX Nifty comprising of 50 scrips.

Rationale for adoption of benchmark:

E.D.G.E. Fund will invest in companies that are large/broad market capitalisation based. Since the Fund will not restrict itself from investing in any particular size/ type of company, it is best to have a broad based index for such a fund. Hence, S & P CNX Nifty is the appropriate benchmark for the Fund.”

Further, the information pertaining to Benchmark Index in 'Highlights - Summary of the Scheme' will be replaced with 'Benchmark Index- S & P CNX Nifty'

**b) Section IV- Fees and Expenses, Sub - Section (E) on “Exit Load Reduction Privileges - by Right of Accumulation”:**

The following two paragraphs would be inserted under the 'notes' to the ROA and sub heading 'Intra-Scheme Switching option' in Section III (B) on Special Products.

**Switches during Discounting Cycle under ROA between Schemes/Plans:**

Switches will be treated at par with purchase/redemption and will be subject to the entry/exit load applicable to the switch-in/switch-out Scheme/Plan. However, for the purpose of ROA facility, for calculating the discounting cycle of the switch-in Scheme/Plan, the number of days invested in the switch-out Scheme/Plan would be considered and the investor would have to remain invested for the residual number of days required to fulfill the discounting cycle requirement of the switch-in Scheme/Plan, if any.

**Switches / Redemptions after Discounting Cycle under ROA between Schemes/Plans :**

Entry/Exit load will be waived off for Switch-in/Switch-out transactions to/from any Schemes /Plans/Subsequent redemptions from any switch-in Schemes /Plans (except switch-out/redemption from Edelweiss Monthly Interval Fund - Series 1 and Edelweiss Quarterly Interval Fund - Series 1, Switch-out/ Redemption from Edelweiss ELSS Fund where there is lock-in period of 3 years and such other Schemes, as and when launched by Edelweiss Mutual Fund, which have a mandatory lock - in period).

In Section IV on "Fees and Expenses" Sub- Section (E) on "Exit Load Reduction Privileges - by Right of Accumulation (ROA)" would be inserted:

**Right of Accumulation (ROA):**

The Right of Accumulation (ROA) allows a Qualified Investor/ Unit holder to either waive off or lower his exit load by entering into either a single transaction or multiple transactions for the Accumulated Investment prescribed by AMC from time to time, within the specified discounting days & hold the same Accumulated Investment through out the discounting cycle.

The Qualified Investor /Unit holder is required to comply with the requirements of KYC, and all such requirements that would be applicable (other than availing a lower exit load on fulfillment of the ROA criteria), as would be applicable to any other investor. The AMC reserves the right to call for documents/ information as it deems fit, to ascertain whether the investor is qualified to be treated as Qualified Investor. If upon scrutiny of available information/ document, it is concluded that such investor does not meet the prescribed criteria of Qualified Investor, such investor will not be provided the privileges of ROA. In case, where the AMC comes across cases where the ROA facility is wrongly claimed by any investor claiming to be a Qualified Investor, the AMC reserves the right to disentitle such investor from ROA facility. In such case, any benefit that would have already been availed by the investor will be reversed by the AMC by debiting the account of such investor or otherwise recovered from time to time.

**Statement of Intention (SOI):**

Qualified Investor /Unit holder, wishing to avail the reduced load benefits in the Scheme will have to state his intentions clearly, of making Accumulated Investment within the given time frame i.e. within the discounted days by filling up SOI in the prescribed format either attached with the original form or available separately & will have to enter into a non-binding commitment to purchase units of the Scheme within the discounting days as may be specified from time to time.

**(C) Features of ROA under the designated Schemes as mentioned below:**

**Features of ROA:**

There are two categories of Right of Accumulation namely Right of Accumulation - I (ROA-I) and Right of Accumulation - II (ROA-II).

Unit holders are offered breakeven points in the exit load, where the exit load can either be reduced or waived off, if the following conditions are met in respective

- If at any point of time, redemption is such that the minimum Accumulated Investment amount as per ROA is not maintained during the Discounting Cycle, the normal load structure would be applicable for such redemption.

**ROA-II**

Discounting Days	within 10 Business Days

**(D) Section IV- Fees and Expenses, Sub- Section (E) on "Exit Load Reduction Privileges - by Right of Accumulation":**

The following paragraphs would be inserted in Section IV- Fees and Expenses as 'Notes' to Sub- Section "Exit Load Reduction Privileges - by Right of Accumulation":

**Notes:**

- In deciding the Accumulated Investment under the Scheme, the Fund will use the "subscription including additional subscription amount" given by the Qualified Investor/ Unit holder during the discounting days, for determining whether the unit holder qualifies for the Right of Accumulation criteria.
- In calculating the discounting cycle, for availing exit load reduction the calculation will commence from the Business Day following the day on which the targeted Accumulated Investment is achieved within the discounted days. For Example: if the Qualified Investor/ Unit holder enters into Statement of Intention (SOI) on September 1, 2008, then the investor will have to bring in the Accumulated Investment (of Rs. 10 lakhs) latest by September 12, 2008 (last day of the discounting cycle i.e. 10 Business Days). Assuming that the investors are able to get Rs. 1 lakh on September 2, 2008 & next 9 lakhs on September 6, 2008 then the discounting cycle (of 90 days) in this case will start from September 7, 2008 & they can avail the exit load reduction privilege i.e. in this case the exit load will be waived off under ROA-I, if they stay invested upto/above after December 6, 2008.
- Qualified Investor /Unit holder should also comply with the requirements of Cut off timings, discussed elsewhere in this document.
- In case the Qualified Investor/ unit holder does not submit the SOI at the time of investment & submits it later on, the investor has an option of including, the cost of the total investments which the investor/ unit holder has in the Scheme as at the date of submission of SOI, towards Accumulated Investment & the Qualified Investor will be required to bring in additional amount to equate the investment cost to the prescribed Accumulated Investment within discounting days commencing from the date of submission of SOI. Prescribed discounting cycle shall commence from the Business Day following the day on which the targeted Accumulated Investment is achieved within the discounted days. For example: if the investor invests Rs. 1 lakh on September 1, 2008 & submits SOI on September 10, 2008, in this case, if he avails this option, he is required to bring in incremental amount of Rs.9 lakhs (as Accumulated Investment required in 10 lakhs under ROA-I) by September 24, 2008(10 Business days from September 10, 2008) & hold the same till the discounting cycle to avail the ROA.
- In case the Statement is revised upward i.e. new SOI is filed at any time during the discounting days, then such a revision will be treated as a new Statement & a new cycle will start accordingly.
- In case the Qualified Investor/ Unit holder redeems units during the discounting days then the Accumulated Investment will stand reduced to that extent & in case they intend to avail the exit load reduction privilege, then they need to comply with the requirements by getting the balance Accumulated Investment within the discounting days & holding the prescribed Accumulated Investment upto the discounting cycle period.
- In case of default i.e. if the Qualified Investor/ Unit holder opts for the ROA but fails to get in the Accumulated Investment within the discounting period or

fails to stay with the Scheme till the discounting cycle or fails to get the Accumulated Investment etc. in all such situations the Qualified Investor/ Unit holder will not be able to avail the benefits of reduced exit load.

- In cases where subsequently, during the scrutiny of the documents submitted for registration, if it is found that the documents are incomplete or deficient in any manner whatsoever, then the AMC reserves the right to reject such applications of SOI & not extend this facility for such applications.
- The AMC reserves the right to withdraw/ modify this facility or its terms (like discounting days, discounting cycle, Accumulated Investment or any other such conditions mentioned above) at any given point of time. The AMC shall not be bound to provide this ROA facility i.e. of reducing the exit load for any Qualified Investor/ Unit holder, who has provided SOI but whose discounting days have not expired, if it deems fit in the larger interest of the Scheme or Mutual Fund.

• **Switches / Redemptions after Discounting Cycle under ROA between Schemes/Plans:**

**8. NOTICE CUM ADDENDUM TO SCHEME INFORMATION DOCUMENT (SID)/KEY INFORMATION MEMORANDUM (KIM) OF THE DESIGNATED SCHEMES OF EDELWEISS MUTUAL FUND:**

**1. Introduction of Trigger Facility in Edelweiss Diversified Growth Equity (E.D.G.E.) Fund**

- The following paragraphs will be inserted under Section III (B) (4) on Trigger:
  - Time-based triggers - Time-based triggers are actioned on the day and/or date opted by the investor. For example, if Investor opted for particular day or date trigger & if he wishes to gift some units to his mother on her birthday, a trigger could be set based on the date as requested by the Unit holder.
  - Event-based triggers - Investor can also set triggers based on the occurrence of a particular external event that affects the value of investment. For example,
    - \* Investment value- Change in the value of investment held by unit holder by certain percentage/ value (rise/fall) then trigger can be activated. Percentage change in value of units will be calculated on the amount invested by the unit holders.
    - \* Capital Appreciation/Depreciation - If investment value appreciates/depreciates by certain percentage /value (rise/fall) trigger will be activated.
    - \* Change in NAV-Change in the NAV by certain percentage (rise/falls) on Invested NAV then trigger will be activated.
    - \* BSE Sensex/ NSE Nifty- If BSE Sensex/NSE Nifty changes by certain percentage/points (rise/falls) trigger will be activated. Only end of day closing points of BSE/NSE will be considered for activating the trigger. Percentage rise/falls will be calculated by taking the base index as on the investment date.

For further details, please refer SAI.

E.D.G.E. Fund offers Expiry Day Trigger Facility under time based triggers:

**Concept of Expiry Day:**

Expiry Day is the settlement day for derivatives segment in the relevant Stock Exchange (which is currently last Thursday of the month or any day which is declared as the settlement day for Derivatives segment in case of NSE.)

As an additional facility to the investors this Scheme offers Expiry Day Trigger Facility under which the investor can reduce his Exit Load burden by opting for Full or Partial redemption of Units/Amount on Expiry Day or Redemption on Expiry Day of Original Investment or Redemption of gains(to the extent of capital appreciation ) only or Full amount or Partial amount /Units switch on Expiry Day to other schemes of Edelweiss Mutual Fund or Original Investment switch or Gain switch on Expiry Day to other schemes of Edelweiss Mutual Fund or Gain redeemed and Original Investment switched on Expiry Day to other schemes of Edelweiss Mutual Fund or Original Investment redeemed and gain switched on Expiry Day to other schemes of Edelweiss Mutual Fund at a load which is lower than the one which he would otherwise be required to pay. Further, please note that in case of a Switch Request the load Structure of the other Scheme would also be applicable.

In case the investor/ unit holder opts for “Expiry Day Trigger Facility”, he will be able to avail a lower Exit load as described below:

Particulars	Load chargeable* (as %age of NAV)
Trigger request for redemption/ switch etc. received on any business day for activation of Trigger on any Expiry Day within & including 365 days from the date of allotment. However, for activation of Trigger on a particular Expiry Day (within 365 days from the date of allotment), the Trigger request should be received on any business day upto & including Friday preceding the Expiry Day.	0.50
Trigger request for redemption/ switch etc. received on any business day for activation of Trigger on any Expiry Day after 365 days i.e. from 365 days and above from the date of allotment in the Scheme). However, for activation of Trigger on a particular Expiry Day (within 365 days from the date of allotment) the Trigger request should be received on any business day upto & including Friday preceding the Expiry Day.	Nil

\*AMC reserves the right to revise the load structure from time to time. Such changes will become effective prospectively from the date such changes are incorporated.

Investors are requested to note that presently, exit load reduction privilege is offered only under the Expiry Day Trigger.

If the investor uses his Trigger Facility & wishes to redeem/Switch at Expiry Day’s NAV, he needs to submit his Trigger request till 3:00 pm on a Friday (in case such Friday is a holiday then the preceding Business Day) of the week preceding the Expiry Day clearly specifying that he wishes to receive the Expiry Day’s NAV in the Trigger form. For Example: in case if 29th May 2008 is the Expiry Day (last Thursday of the month), then the Trigger request will have to be submitted by 3:00 pm before May 23, 2008 (Friday).

If the request is received after Friday (in case such Friday is a holiday then the preceding Business Day) of the week preceding the Expiry Day clearly specifying that he wishes to receive the Expiry Day’s NAV in the Redemption form, then it will not be processed as per the Expiry Day’s NAV of that month but will be processed as per the Expiry Day’s NAV of the next month. For Example: Continuing the above example if redemption request is received after May 23, 2008 then the Applicable NAV of the next Expiry Day will be applicable i.e. June 26, 2008 (next Expiry Day).

In case the investor fails to specify the Expiry Day, then in such case by Default it will get executed on the first Expiry Day after his submission of the Application. Further, in case the investor wishes to withdraw the Trigger Facility then he needs to ensure that the request is sent upto Friday preceding the Expiry Day.

For further details on Trigger Facility please refer SAI.

**ii. The following paragraphs will be inserted under Section IV (c) on Load Structure:**

In case the investor/ unit holder opts for "Expiry Day Trigger Facility", he will be able to avail a lower Exit load as described below:
