Risk Factors: Edelweiss ELSS Fund is only the name of the scheme and does not in any manner indicate either the quality of the scheme, its future prospects and return. All Mutual Fund and securities investments are subject to market risk and there can be no assurance that the schemes' objectives will be achieved. As with any investment in securities, the NAV of the Units issued under the Scheme can go up or down depending on the factors and forces affecting the capital markets. Past performance of the Sponsor and their Affiliates/AMC/Mutual Fund & its Scheme(s) does not indicate the future performance of the Scheme and may not necessarily provide a basis of comparison with other investments. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. Investors are not being offered any guaranteed / assured returns under any scheme of Edelweiss Mutual Fund. This scheme is subject to lock-in period of 3 years. Tax benefits indicated are as per prevailing laws. Please consult your tax advisor before investing.

All Mutual Fund and securities investments are subject to market risk and there can be no assurance that the schemes' objectives will be achieved. As with any investment in securities, the NAV of the Units issued under the Scheme can go up or down depending on the factors and forces affecting the capital markets. Past performance of the Sponsor and their Affiliates/AMC/Mutual Fund & its Scheme(s) does not indicate the future performance of the Scheme and may not necessarily provide a basis of comparison with other investments. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. Investors are not being offered any guaranteed / assured returns under any scheme of Edelweiss Mutual Fund.

Investment Objective

The primary objective of the scheme will be to generate absolute returns with low volatility over a longer tenure of time. The scheme will invest in arbitrage opportunities, equity derivative strategies, pure equity investments and the balance in debt and money market instruments. The Scheme proposes to allocate assets to both equity and debt markets based upon the market view. However there is no assurance that the investment objective of the scheme will be realized.
