- Macro Economic Update
- India's merchandise trade deficit widened annually to \$27.35 billion in Jul 2025 compared to \$24.77 billion in Jul 2024. Exports rose by 7.29% YoY to \$37.24 billion in Jul 2025, and imports increased 8.59% YoY to \$64.59 billion during the same period.
 - India's Consumer Price Index (CPI)-based inflation fell to 1.55% YoY in Jul 2025, down from 2.10% in Jun 2025, driven by easing food price pressures. This marks the first time in over six years that inflation has dropped below the RBI's lower tolerance level of 2%, and it is the lowest YoY inflation rate recorded since Jun 2017.
 - India's net direct tax collections declined by 3.95% YoY to Rs. 6.64 trillion between Apr 1 and Aug 11, 2025, primarily due to an increase in tax refunds. Gross direct tax collections also saw a slight decrease of 1.87%, totaling Rs. 7.99 lakh crore. The government has set a target of Rs. 25.20 lakh crore in direct tax collections for the fiscal year 2025–26.
 - India's wholesale price index (WPI)-based inflation fell by 0.58% YoY in Jul 2025, following a 0.13% decline in Jun. This marks the second consecutive month of annual deflation in wholesale prices and the sharpest drop since Jul 2023, primarily driven by falling food prices.

- Domestic Equity Market Update
- Domestic equity markets rebounded after six consecutive weeks of decline, with key benchmark indices BSE Sensex and Nifty 50 rising by 0.93% and 1.10%, respectively. The rally was broad-based, as both the mid-cap and small-cap segments ended the week in the green.
 - Domestic equity markets gained as retail inflation in Jul 2025 eased more than expected to 1.55% YoY, marking its lowest level in over eight years. The decline brought inflation below the RBI's lower tolerance level of 2% and increased the likelihood of another interest rate cut. Gains were extended following a dovish outlook from the U.S. Federal Reserve, with the Vice Chair for Supervision indicating expectations of three interest rate cuts this year. Investor sentiment remained optimistic in anticipation of the upcoming meeting between the U.S. and Russian Presidents on Aug 15, 2025 in Alaska, which is intended to negotiate a resolution to the war in Ukraine.
 - On the BSE sectoral front, BSE Healthcare rose 2.99% following strong Q1FY26 results from Apollo Hospitals Enterprise Ltd. The company reported a consolidated net profit of Rs. 433 crore for Q1FY26, marking a 42% YoY increase from Rs. 305 crore in the same quarter last year. Revenue rose 14.9% to Rs. 5,842 crore from Rs. 5,085 crore, while EBITDA grew 26.3% to Rs. 851.5 crore. BSE Auto gained 2.79% as the onset of the festive season, beginning with Onam celebrations in late August, prompted cautious optimism within the Indian auto industry regarding a potential pickup in demand momentum over the coming months.
