- Macro Economic Update
- India's wholesale price index (WPI)-based inflation rose by 0.52% YoY in Aug 2025, rebounding from a 0.58% decline in Jul. This marked the highest wholesale inflation since Apr 2025, driven primarily by a recovery in food prices and faster growth in manufacturing costs.
  - India's merchandise trade deficit narrowed annually to \$26.49 billion in Aug 2025, compared to \$35.64 billion in Aug 2024. Exports rose by 6.72% YoY to \$35.10 billion in Aug 2025, while imports declined by 10.13% YoY to \$61.59 billion during the same period.
  - According to the Periodic Labour Force Survey data, released by the Ministry of Statistics and Programme Implementation (MoSPI), India's unemployment rate declined to 5.1% in Aug 2025, signaling a positive trend in the labor market. The data reflects a continuous decrease from 5.6% in Jun and 5.2% in Jul 2025, indicating signs of recovery.
  - According to data released by the labour ministry, retail inflation for farm and rural workers increased to 1.07% and 1.26% in Aug 2025 from 0.77% and 1.01%, respectively, in Jul 2025.

- Domestic Equity Market Update
- Domestic equity markets rose for the third consecutive week, with key benchmark indices BSE Sensex and Nifty 50 rising by 0.88% and 0.85%, respectively. The rally was broad-based, as both the mid-cap and small-cap segments ended the week in the green.
  - Domestic equity markets rose as sentiment improved following the resumption of trade negotiations between India and the U.S. The visit of the U.S. Trade Representative for South Asia to New Delhi to discuss a potential deal boosted optimism. Gains were extended after the U.S. Federal Reserve delivered its first rate cut of the year, citing recent sluggishness in the labor market. The U.S. central bank reduced interest rates by 25 bps to a new range of 4.00% to 4.25%, marking its first rate cut since Dec 2024, and signaled two additional 25 bps cuts later this year.
  - On the BSE sectoral front, BSE Realty gained 4.36% on expectations of rate cut by the RBI following the U.S Federal Reserve's rate cut in its Sep 2025 policy meeting. Gains were extended following the Uttar Pradesh government's plan to remove ground coverage limits and raise the floor area ratio for industrial, residential, and commercial projects under new unified building bylaws for Noida, Greater Noida, and YEIDA. These changes are expected to ease construction rules, attract investment, and resolve regulatory inconsistencies, enabling both vertical and lateral growth. BSE IT rose 1.39% after the U.S. Federal Reserve cut its interest rate for the first time since Dec 2024. A rate cut in the U.S. is expected to increase discretionary spending, which in turn benefits information technology companies that derive a significant portion of their revenue from the U.S.

- Domestic Debt Market Update
- Bond yields initially declined as market participants anticipated a dovish policy stance from the U.S. Federal Reserve, with additional support from a strengthening rupee that bolstered market sentiment. However, these gains were offset despite a 25 bps rate cut by the U.S. Federal Reserve in its Sep 2025 policy meeting, as hawkish commentary from the Fed Chair overshadowed the rate cut. The rate cut was described as a "risk-management" move, and the Chair emphasized a data-dependent approach, stating that future decisions would be made on a "meeting-by-meeting" basis.
  - Yield on the 10-year benchmark paper (6.33% GS 2035) was unchanged to close at 6.49% from the previous week's close.
  - Data from Reserve Bank of India showed that money supply grew 9.5% on a yearly basis for the fortnight ended Sep 5, 2025, compared to an increase of 10.1% in the same period of the previous year. Bank Credit to Commercial Sector grew 10% on a yearly basis for the fortnight ended Sep 5, 2025, compared to an increase of 12.9% in the same period of the previous year.
