Paragraph 13.7. of the Master Circular for Mutual Funds dated March 20, 2026.
	15.	Short Selling	The Scheme shall not invest in the said security	

\*\*The Scheme may take an exposure to equity derivatives of constituents of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted subject to rebalancing within 7 calendar days (or as specified by SEBI from time to time). The exposure of the scheme in equity derivative instruments shall be up to 20% (for non-hedging) of the equity portfolio of the scheme.

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for short term and defensive considerations as per clause 1.9.1 (b) of SEBI Master Circular dated March 20, 2026 for Mutual Funds, and the fund manager will rebalance the portfolio within 7

calendar days from the date of deviation.

**Change In Investment Pattern:**

The Scheme, out of the funds allocated shall invest in securities covered by Nifty Next 50 TRI and shall invest in money market instruments, cash & cash equivalents and/or units of liquid schemes only to the extent necessary to meet the liquidity requirements for honoring repurchase / redemptions / expenses. In view of the nature of the Scheme, the asset allocation pattern as indicated above may not change, except in line with the changes made in SEBI (MF) Regulations, from time to time.

Subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be affected only in accordance with the provisions of Regulation 22(9) (c) of the SEBI (MF) Regulations, 2026 as detailed later in this document.

**Portfolio Rebalancing:**

In accordance with Clause 4.4.5 (i) of the Master Circular for Mutual Funds dated March 20, 2026 in case of change in constituents of the index due to periodic review, the portfolio will be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post 1.14. such transactions replication of the portfolio with the index is maintained at all points of time.

**Timelines for deployment of funds collected in NFO:**

In line with SEBI Master Circular dated March 20, 2026, for Mutual Funds clause 7.24, funds collected in new fund offer shall be deployed in the following manner:

1. The AMC shall deploy the funds garnered in an NFO within 30 business days from the date of allotment of units.
2. In an exceptional case, if the AMC is not able to deploy the funds in 30 business days, reasons in writing, including details of efforts taken to deploy the funds, shall be placed before the Investment Committee of the AMC.
3. The Investment Committee may extend the timeline by 30 business days, while also making recommendations on how to ensure deployment within 30 business days going forward and monitoring the same. The Investment Committee shall examine the root cause for delay in deployment before granting approval for part or full extension. The Investment Committee shall not ordinarily give part or full extension where the assets for any scheme are liquid and readily available.
4. In case the funds are not deployed as per the asset allocation mentioned in the SID as per the aforesaid mandated plus extended timelines, AMC shall:
  - (i) not be permitted to receive fresh flows in the same scheme till the time the funds are deployed as per the asset allocation mentioned in the SID.
  - (ii) not be permitted to levy exit load, if any, on the investors exiting such

	<p>scheme(s) after 60 business days of not complying with the asset allocation of the scheme.</p> <p>(iii) inform all investors of the NFO, about the option of an exit from the concerned scheme without exit load, via email, SMS or other similar mode of communication.</p> <p>(iv) report deviation, if any, to Trustees at each of the above stages.</p>
<p><b>Investment Strategy</b></p>	<p>The Scheme will track the Nifty Next 50 Total Return Index and will follow a passive or indexing approach to seek to achieve its investment objective. Unlike other funds, the scheme will not try to outperform its benchmark and will not seek temporary defensive positions when the market declines or appears overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment nor will it attempt to apply any economic, financial or market analysis. Since the scheme is an exchange traded fund, the scheme will only invest in the securities constituting the underlying index.</p> <p>In case of Money Market securities, the scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio.</p> <p>The scheme may take exposure to derivative instruments on the underlying index (stock/ index futures) up to 20% of the Net Assets. Derivatives shall mean derivatives instruments as permitted by SEBI, including derivative exposure in accordance with SEBI Master Circular dated March 20, 2026, and such other amendments issued by SEBI from time to time. The Scheme may take an exposure to equity derivatives of constituents of the underlying Basket when securities of the Basket are unavailable, insufficient or for rebalancing at the time of change in Basket or in case of corporate actions, for a short period of time, subject to derivative limits. Such exposure to derivatives will be rebalanced within seven calendar days. The Scheme may use derivative instruments such as stock/index futures and stock/index options contracts, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme. Derivative limit subject to limit of 20% of net assets</p> <p><b>PORTFOLIO TURNOVER</b></p> <p>The Scheme is an open-ended Exchange Traded Fund, and it is expected that there may be a number of subscriptions and repurchases on a daily basis through Stock Exchange(s) or Market Makers and Large Investors. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of changes in the composition, if any. However, it will be the endeavor of the Fund Manager to maintain an optimal portfolio turnover rate commensurate with the investment objective of the Scheme and the purchase/ redemption transactions on an ongoing basis in the Scheme.</p> <p><b>TRACKING ERROR &amp; TRACKING DIFFERENCE</b></p> <p>Tracking Error and Tracking difference is to measure divergence of the performance (return) of the Fund's portfolio from that of the Underlying Index. Tracking error / Tracking difference are inherent in any index fund and such errors may cause the schemes to generate returns which are not in line with the performance of the Nifty Next 50 TRI or one or more securities covered by / included in the Nifty Next 50 TRI. That said, the risk parameters of the portfolio of the Scheme and underlying index would be similar. Tracking Error / Tracking Difference may arise from a variety of factors including but not limited to:</p>

	<ol style="list-style-type: none"> <li>1. Any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividends, etc.</li> <li>2. The index reflects the prices of securities at a point in time, which is the price at close of business day on NSE/BSE. The scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the NSE/BSE.  In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from NSE / BSE closing prices.</li> <li>3. The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index.</li> <li>4. Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.</li> <li>5. Being an open-ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet on going redemptions.</li> <li>6. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices.</li> <li>7. Due to the reasons mentioned above and other reasons that may arise, it is expected that the scheme may have a tracking error not to exceed by of 2% per annum from its Benchmarks.</li> <li>8. However, it needs to be clearly understood that this is just an indicative range and that the actual tracking error can be higher or lower than the range given.</li> <li>9. In case of equity oriented passive schemes, TD shall be targeted to be 50 bps (over and above actual TER charged). In case the same is not maintained, it shall be brought to the notice of trustees along with corrective actions taken by the AMC, if any.</li> </ol>
<p><b>Risk Profile of the Scheme</b></p>	<ul style="list-style-type: none"> <li>• Scheme specific risk factors</li> </ul> <ol style="list-style-type: none"> <li>1. Risk Factors Associated with Equity &amp; Equity related instruments The value of the Scheme's investments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, etc. Settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme.</li> </ol> <ul style="list-style-type: none"> <li>• Market Risk: Changes in economic conditions, such as recessions or booms, can impact stock prices. Equities can experience significant price fluctuations and volatility in the short term due to market conditions, economic events, or</li> </ul>

	<p>investor sentiment. Broader events like financial crises or natural disasters can also affect equity markets</p> <ul style="list-style-type: none"> <li>• <b>Company-Specific Risk:</b> Factors related to a company's operations, management decisions, or competitive position can affect stock performance. Companies with high levels of debt or poor financial health may face difficulties that can impact their stock value. Unexpected events such as management changes, regulatory fines, or product recalls can impact stock prices.</li> <li>• <b>Liquidity Risk:</b> Stocks with low trading volumes can be harder to buy or sell without affecting the stock price significantly. In times of market stress, liquidity can dry up, making it harder to execute trades at desired prices.</li> <li>• <b>Political and Regulatory Risk:</b> Changes in government policies, regulations, or taxation can impact corporate profits and stock values. Political instability, conflicts, or trade disputes can affect global markets and individual stocks.</li> <li>• <b>Currency Risk:</b> Fluctuations in exchange rates can affect the value of investments in foreign equities or equity-related instruments.</li> <li>• <b>Behavioral Risk:</b> Market prices can be influenced by investor behavior, including irrational exuberance or panic selling, which can lead to significant price swings.</li> <li>• <b>Sector-Specific Risk:</b> Specific sectors may face unique risks, such as technological changes in tech or regulatory issues in healthcare, which can impact stocks within those sectors.</li> </ul> <p>2. Risk factors associated with investing in Money Market Instruments/cash and cash equivalent:</p> <p>Edelweiss Nifty Next 50 ETF will invest not less than 95% of its corpus in the securities representing the Nifty Next 50 TRI Index as this Scheme endeavors to earn returns that correspond to the total returns represented by the Nifty Next 50 TRI Index. The Scheme will have insignificant cash and cash equivalent or money market investments. Therefore, the scheme is not significantly susceptible to risks associated with money markets instruments/ cash and cash equivalents:</p> <p>Risks associated with money market instruments are as under:</p> <ul style="list-style-type: none"> <li>• <b>Interest rate Risk:</b> Price of a money market instrument generally falls when the interest rates move up and vice-versa. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.</li> <li>• <b>Spread Risk:</b> In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.</li> <li>• <b>Credit risk or default Risk:</b> Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest and/or principal payment obligations. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted</li> </ul>
--	--

	<p>here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.</p> <ul style="list-style-type: none"> <li>• Liquidity &amp; Settlement Risk: The liquidity of a fixed income security may change, depending on market conditions leading to changes in the liquidity premium attached to the price of such securities. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio. Different segments of the financial markets have different settlement cycle/periods, and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. This can adversely affect the ability of the Fund to swiftly execute trading strategies which can lead to adverse movements in NAV.</li> <li>• Reinvestment Risk: Interest rates may vary from time to time. The rate at which intermediate cash flows are reinvested may differ from the original interest rates on the security, which can affect the total earnings from the security.</li> <li>• Prepayment Risk: The Scheme may receive payment of monthly cashflows earlier than scheduled, which may result in reinvestment risk.</li> <li>• Market Risk: Lower rated or unrated securities are more likely to react to developments affecting the market as they tend to be more sensitive to changes in economic conditions than higher rated securities</li> </ul> <p>3. Risk Factors associated with the Scheme:</p> <p>3a. Passive Investments:</p> <p>As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets. The Scheme's performance is directly tied to the Underlying Index. If the Underlying Index is dissolved, withdrawn, or not published for any reason, the Trustee may change the Scheme to track a different, suitable index or temporarily halt tracking the Underlying Index until it becomes available again. Unit holders will be notified of any such changes. During this transition, the investment strategy will be adjusted to reflect the new index, which may result in tracking errors.</p> <p>3.b. Tracking Error and Tracking Difference Risk:</p> <p>Tracking Error and Tracking difference is to measure divergence of the performance (return) of the Fund's portfolio from that of the Underlying Index. Tracking error / Tracking difference are inherent in any index fund and such errors may cause the schemes to generate returns which are not in line with the performance of the Nifty Next 50 TRI Index or one or more securities covered by / included in the Nifty Next 50 TRI Index. That said, the risk parameters of the portfolio of the Scheme and underlying index would be similar. Tracking Error / Tracking Difference may arise from a variety of factors including but not limited to:</p> <ol style="list-style-type: none"> <li>1. Any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividends, etc.</li> </ol>

	<p>2. The index reflects the prices of securities at a point in time, which is the price at close of business day on BSE Limited (BSE)/ National Stock Exchange of India Limited (NSE). The scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the BSE/NSE. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from BSE/NSE closing prices.</p> <p>3. The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index.</p> <p>4. Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.</p> <p>5. Being an open-ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet on going redemptions.</p> <p>6. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices.</p> <p>7. Due to the reasons mentioned above and other reasons that may arise, it is expected that the scheme may have a tracking error not to exceed by of 2% per annum from its Benchmarks.</p> <p>8. However, it needs to be clearly understood that this is just an indicative range and that the actual tracking error can be higher or lower than the range given.</p> <p>3.c. Operational risks:</p> <p>1. There are risks associated with the day-to-day management of the fund, including errors in trading or valuation like safekeeping of ETF assets, cash reporting and deployment etc.</p> <p>2. Due to technical error, the reporting of NAV at frequent intervals on the website and exchange may be impacted.</p> <p>3. Risk associated with the index provider's accuracy in maintaining and calculating the index. Errors or changes in the index methodology can impact ETF performance. Failure to update the same while rebalancing may also impact the performance and tracking error.</p> <p>4. Frequently rebalancing of the ETF's holdings to match the index, which can lead to transaction costs and potential market impact.</p> <p>5. The units of the Scheme may trade at prices above or below their Net Asset Value (NAV). The NAV will change based on the market value of the Scheme's holdings. The trading prices of the units will vary in response to shifts in their NAV and market supply and demand. However, because units can be created and redeemed in creation units directly with the Fund, substantial discounts or premiums to the NAV are unlikely to last, as arbitrage opportunities are expected to address these imbalances.</p> <p>4. Risk factors associated with Derivatives:  Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.</p> <p>The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.</p>
--	--

	<p>The Fund may use derivatives instruments like equity futures &amp; options, or other derivative instruments as permitted under the Regulations and Guidelines. The scheme will be using non-hedging strategy.</p> <p>Common risk associated with Trading in derivatives:</p> <ol style="list-style-type: none"> <li>a. Exposure risk: An exposure to derivatives can lead to losses. Derivatives carry the risk of adverse changes in the market price.</li> <li>b. Illiquidity Risk i.e. risk that a derivative trade may not be executed or reversed quickly enough at a fair price, due to lack of liquidity in the market.</li> <li>c. Execution Risk - The prices which are seen on the screen need not be the same at which execution will take place.</li> <li>d. Mark to Market Risk - There could be a market to market loss that would arise and additional margin may need to be provided for the same.</li> <li>e. Basis Risk - In extraordinary circumstances, the Fund Manager may have to unwind positions before the expiry at a basis which may be higher than the initiation basis to meet redemptions. Premature unwinding of the position might result in the locked-in profits not getting realized.</li> <li>f. Tracking Error Risk - Corporate actions such as demergers might result in the weights of the index stocks to change. This might lead to a tracking error affecting the returns to a certain extent.</li> </ol> <p>5. Risks Associated with exposure in Tri-party Repo</p> <p>Risk of exposure in the Tri-party Repo settlement Segment provided by CCIL emanates mainly on two counts –</p> <ol style="list-style-type: none"> <li>a. Risk of failure by a lender to meet its obligations to make funds available or by a borrower to accept funds by providing adequate security at the settlement of the original trade of lending and borrowing under Triparty Repo transaction.</li> <li>b. Risk of default by a borrower in repayment.</li> </ol> <p>6. Risks Associated with segregated portfolio</p> <ol style="list-style-type: none"> <li>1) Unit holder holding units of Segregated Portfolio may not able to liquidate their holdings till the recovery of money from the issuer.</li> <li>2) Portfolio comprising of Segregated Portfolio may not realise any value or may have to be written down.</li> <li>3) Listing of units of Segregated Portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.</li> </ol> <p>7. Risks associated with Securities Lending:</p> <p>It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there is also temporary illiquidity of the securities that are lent out and the scheme will not be able to sell such lent out securities until they are returned.</p> <p>As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the scheme and the approved intermediary. Such</p>

failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

#### **8. Risk Factors associated with Exchange Traded Schemes:**

The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and / or ability to meet its investment objective. The specific risk factors related to the Scheme include, but are not limited to the following:

##### **1. Market Trading Risks**

- **Absence of prior Active Market:** Although the Scheme is listed on NSE/BSE, there can be no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the Units of the Scheme would be infrequent.
- **Trading in Units may be Halted:** Trading in the Units of the Scheme on NSE/BSE may be halted because of market conditions or for reasons that in view of NSE/BSE or SEBI, trading in the Units of the Scheme are not advisable. In addition, trading of the Units of the Scheme are subject to trading halts caused by extraordinary market volatility and pursuant to NSE / BSE and SEBI 'circuit filter' rules. There can be no assurance that the requirements of NSE / & BSE necessary to maintain the listing of the Units of the Scheme will continue to be met or will remain unchanged.
- **Lack of Market Liquidity:** The Scheme may not be able to immediately sell certain types of illiquid Securities. The purchase price and subsequent valuation of restricted and illiquid Securities may reflect a discount, which may be significant, from the market price of comparable Securities for which a liquid market exists.
- **Units of the Scheme May Trade at prices Other than NAV:** The Units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the holdings of the Scheme. The trading prices of the Units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the Scheme. However, given that Units of the Scheme can be created and Redeemed in Creation Units directly with the Fund, it is expected that large discounts or premiums to the NAV of Units of the Scheme will not sustain due to arbitrage opportunity available.
- **Regulatory Risk:** Any changes in trading regulations by NSE / BSE or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the Securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Risk of Substantial Redemptions:**

The Scheme at times may receive large number or large value of direct redemption requests as per the provision of the SID. The liquidity of underlying investments may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances beyond the influence of the AMC. The inability of the Scheme to sell intended securities due to liquidity & settlement problems, could cause delay for processing the large number of direct redemptions. The Trustee, in the general interest of the Unit holders of the Schemes offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Working Day depending on the total "Saleable Underlying Stock" available with the Fund.

## **2. Redemption Risk:**

Investors may note that even though the Scheme is an open-ended Scheme, the Scheme would ordinarily repurchase Units in Creation Unit Size by Market Makers and for an amount of greater than 25 crores for large investors. Thus, unit holdings less than creation unit size can only be sold through the secondary market on the Exchange unless any of the scenarios mentioned below have occurred:

- i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

## **3. Risk factors associated with processing of transaction through Stock Exchange Mechanism**

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the Fund has no control. However, units of the Scheme can only be subscribed in demat mode. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

For further details please refer SAI.

## **RISK MITIGATION STRATEGIES**

The Fund has designed a detailed process to identify, measure, monitor and manage the portfolio risk. The aim is not to eliminate the risk completely but to have a structured mechanism towards risk management thereby maximizing potential opportunities and minimize the adverse effects of risk. Few of the key risks identified are:

Risk associated with Equity and equity related instruments:

<b>Risk &amp; Description specific to the Scheme</b>	<b>Risk mitigants / Management Strategy</b>
<p><b>Market Risk</b> The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.</p>	<p>Market risk is a risk which is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities of the underlying index.</p>
<p><b>Liquidity risk</b> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.</p>	<p>Control portfolio liquidity at portfolio construction stage. Having optimum mix of cash &amp; cash equivalents along with the money market instruments in the portfolio as defined in asset allocations. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.</p>
<p><b>Derivatives Risk</b> Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly</p>	<p>The fund has provision for using derivative instruments for portfolio balancing and hedging purposes. Investments in derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines. The fund will endeavor to maintain adequate controls to monitor the derivatives transactions entered into.</p>

	with underlying assets, rates and indices.	
<b>Risk associated with money market instruments:</b>		
<b>Risk &amp; Description specific to the Scheme</b>	<b>Risk mitigants / Management Strategy</b>	
<p><b>Market Risk</b> Changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p>	Fund Managers will periodically monitor the portfolio structure with respect to the existing interest rate scenario. Exposure to Money market instruments will be in the form of TREPs and other liquid assets to the extent permissible.	
<p><b>Liquidity risk</b> The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.</p>	The fund will endeavour to minimise liquidity risk by investing in securities having a liquid market. Exposure to Money market instruments will be in the form of TREPs and other liquid assets.	
<p><b>Credit Risk</b> The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default.</p>	Detailed evaluation of issuers will be done. Investments will be done in high credit quality securities. Exposure to Money market instruments will be in the form of TREPs and other liquid assets.	
<p><b>Reinvestment Risk</b> The rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	Reinvestment risks will be limited to the extent of coupons received on money market instruments, which will be a very small portion of the portfolio value. Exposure to Money market instruments will be in the form of TREPs and other liquid assets.	
<b>Risk associated with the scheme:</b>		
<p><b>Tracking Error / Tracking Difference</b> The Tracking Error is the annualized standard deviation of the difference</p>	The AMC will to the best of their efforts ensure that the scheme investments are aligned with the underlying index at all the time. By	

	<p>in daily returns between the underlying index and the NAV of the Index Fund. Tracking difference i.e. the annualized difference of daily returns between the index and the NAV of the Scheme.</p>	<p>continuously monitoring, the AMC will ensure that the tracking error &amp; tracking difference are well within the regulatory thresholds.</p>
	<p><b>Stock Lending</b></p> <p>The Scheme may participate as a lender in the SLB market and lend securities held in the portfolio for earning fees from such lending to enhance revenue of the Scheme. The key risk to the Scheme is creation of temporary illiquidity due to the inability to sell such lent securities, till the time such securities are returned on the contractual settlement date or on exercise of early recall.</p>	<p>The AMC will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p>
<p>For further details please refer SAI.</p>		
<p><b>Plans/Options</b></p>	<p>The Scheme does not offer any Plans/Options for investment.</p> <p>The AMC/Trustee reserve the right to introduce Plan(s)/Option(s) as may be deemed appropriate at a later date.</p>	
<p><b>Applicable NAV (after the scheme opens for subscriptions and redemptions )</b></p>	<p><b>In case of Purchase / Redemption directly with Mutual Fund:</b></p> <p>Pursuant to the clause 4.5.2 of Master Circular dated March 20, 2026, the requirement of “cut-off” timing for NAV applicability as prescribed by SEBI from time to time shall not be applicable for direct transaction with AMCs in ETFs by Market Makers and other eligible investors.</p> <p><b>Settlement of Purchase/Sale of Units of the Scheme on Stock Exchange:</b></p> <p>Buying/Selling of Units of the Scheme on Stock Exchange is just like buying/selling any other normal listed security. If an investor has bought Units, an investor has to pay the purchase amount to the broker/sub-broker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the Stock Exchange(s). If an investor has sold Units, an investor has to deliver the Units to the broker/sub-broker before the securities paying day of the settlement cycle on the Stock Exchange(s). The Units (in the case of Units bought) and the funds (in the case of Units sold) are paid out to the broker on the pay-out day of the settlement cycle on the Stock Exchange(s). The Stock Exchange(s) regulations stipulate that the trading member should pay the money or Units to the investor within 24 hours of the pay-out.</p> <p>If an investor has bought Units, he should give standing instructions for “Delivery-In” to his /her/its DP for accepting Units in his/her/its beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her/its DP to his/ her/its trading member. The trading member will transfer the Units directly to his/her/ its beneficiary account on receipt of the same from NSE</p>	

	<p>&amp;/ BSE's Clearing Corporation. An investor who has sold Units should instruct his/her/its Depository Participant (DP) to give "Delivery Out" instructions to transfer the Units from his/her/its beneficiary account to the Pool Account of his/her/its trading member through whom he/she/it have sold the Units. The details of the Pool A/C (CM-BP-ID) of his/her trading member to which the Units are to be transferred, Unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.</p> <p><b>Rolling Settlement:</b> As per the SEBI's circular dated March 4, 2003, the rolling settlement on T+2 basis for all trades has commenced from April 1, 2003 onwards. The Pay-in and Pay-out of funds and the Units will take place within 2 working days after the trading date. The pay-in and pay-out days for funds and securities are prescribed as per the Settlement Cycle. A typical Settlement Cycle of Rolling Settlement is given below:</p> <p><b>Day Activity:</b></p> <table border="1" data-bbox="598 1025 1481 1272"> <tr> <td><b>T</b></td> <td>The day on which the transaction is executed by a trading member</td> </tr> <tr> <td><b>T+1</b></td> <td>Confirmation of all trades including custodial trades by 11:00 a.m.</td> </tr> <tr> <td><b>T+1</b></td> <td>Processing and downloading of obligation files to brokers/custodians by 1:30 p.m.</td> </tr> <tr> <td><b>T+2</b></td> <td>Pay-in of funds and securities by 11:00 a.m.</td> </tr> <tr> <td><b>T+2</b></td> <td>Pay out of funds and securities by 1:30 p.m.</td> </tr> </table> <p>While calculating the days from the Trading Day (Day T), weekend days (i.e. Saturday and Sundays) and stock exchange / bank holidays are not taken into consideration.</p>	<b>T</b>	The day on which the transaction is executed by a trading member	<b>T+1</b>	Confirmation of all trades including custodial trades by 11:00 a.m.	<b>T+1</b>	Processing and downloading of obligation files to brokers/custodians by 1:30 p.m.	<b>T+2</b>	Pay-in of funds and securities by 11:00 a.m.	<b>T+2</b>	Pay out of funds and securities by 1:30 p.m.

# INSTRUCTIONS TO INVESTORS FOR FILLING UP THE APPLICATION FORM

## I. GENERAL INSTRUCTIONS

1. Please read the Key Information Memorandum, Scheme Information Document (SID) and Statement of Additional Information (SAI) containing the terms of offer carefully before investing. In the SID your attention is particularly drawn to the risk factors of investing in the Scheme and also the sections "Who can't invest" and "Important note on Anti Money Laundering, KYC & investor protection".
2. Applications from residents of Canada will not be accepted.
3. All applicants are deemed to have accepted the terms subject to which the offer is being made and bind themselves to the terms upon signing the Application Form and tendering the payment.
4. Application Form should be filled legibly in ENGLISH in BLOCK letters using Black or Dark Blue ink. Incomplete application forms are liable to be rejected. Please refer to the checklist at the end of the application form to ensure that the requisite details and documents have been provided in order to avoid unnecessary delays and / or rejection of your application.
5. Please strike out any section that is not applicable. Correction/Cancellation on any of the mandatory information should be countersigned by the investor.
6. No receipt will be issued for the application money. The Customer Service Centers will stamp and return the acknowledgement slip in the application form, to acknowledge receipt of the application.
7. Investors are advised to retain the acknowledgement slip signed/stamped by the collection centre where they submit the application.
8. Any detail of the investor in his DP account will override the detail mentioned in this application form in case of mismatch between both.

## II. APPLICANT INFORMATION

1. Name should be given in full without any abbreviations. Preferably write exactly as it appears in your Demat Account or as it appears in the incorporation document as the case may be.
2. Name of the guardian alongwith relationship must be mentioned and it should same as registered with the DP account, if the investments are being made on behalf of a minor. Guardian of the minor should either be a natural guardian (i.e. father or mother) or a court appointed legal guardian. Joint holding is not allowed, if the first applicant is minor. In case of investment in the name of a minor, the registered guardian in the bank account of the minor should be the same guardian as registered in the DP account (Parent/Court Appointed). This will ensure seamless payment of redemption/dividend amount to the minor's account.
3. Name of the Contact Person, email and Telephone No. should be mentioned in case of investments by Company, Body Corporate, Trust, Society, FII and other non-individual applicants.
4. The signature should be in English or in any of the Indian languages. Thumb Impressions must be attested by a magistrate or a notary public or a special executive magistrate under his/her official seal. Application by minor should be signed by the guardian. In case of H.U.F., the Karta should sign on behalf of the H.U.F.
5. The designated Investor Service Center/ Collection Center will affix time stamp/manual stamp and return the acknowledgement slip from the application form, to acknowledge receipt of the Application. No separate receipt will be issued for the application money.
6. Please fill in all the fields to prevent rejection of your Application Form. The application complete in all respects along with the cheque/ fund transfer instructions must be submitted to the nearest designated Investor Service Center/Collection Center. Applications which are incomplete, invalid in any respect or not accompanied by cheque or fund transfer instructions for the amount payable are liable to be rejected
7. Investors must write the Application Name and Scheme on the reverse of the cheques accompanying the Application Form.
8. Investment through constituted Attorney should necessarily be signed by the constituted Power of Attorney holder.
9. Please provide email ID & Mobile Number, this will help us send investment / product related communication and resolve any queries more promptly.
10. In the event the application has more than one investor, the default option for holding would be considered as mentioned in Demat Account. However, in all such cases, communications, proceeds of all dividend/redemption will be paid to the first named holder.
11. Applicants should indicate their status by ticking the appropriate check-box as per DP records.
12. The mode of holding registered with Depository Participant will be applicable to the Units of the Scheme.
13. If the name of the Scheme is different on the Cheque/Demand Draft submitted along with this application, the AMC will consider this under Edelweiss Nifty Bank ETF.

## III. EMAIL COMMUNICATION

Account Statements/ Newsletters/ Annual Reports/ Other statutory information (as permitted under SEBI (Mutual Funds) Regulations, 1996) will be sent to each Unit holder by e-mail. Investors are requested to provide their e-mail address for the same and this will also help us resolve your queries more promptly. Unitholders who have provided email id will be sent all communications/reports as mentioned above by email only and no physical communications will be sent. Any change in the e-mail address should be communicated to nearest designated Investor Services. EMF/Registrars are not responsible for e-mail not reaching the investor and for all consequences thereof. Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the AMC will arrange for the same through physical mode on receipt of request for the same. It is deemed that the Unitholder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties.

## IV. BANK ACCOUNT DETAILS

Bank Account Details registered with Depository Participant will be considered for Refund/Redemption/Dividend payment. The AMC will make payments through NEFT/RTGS where complete account details are available and valid. In case of any rejection, payment will be made through Cheque/DD. In case of invalid DP ID mentioned in the application form, the refund may be processed to bank account mentioned in the

application form/source bank account from where the cheque was issued. Any change of bank mandate request should be submitted to the Depository Participant.

## V. PAN DETAILS

It is mandatory for all investors to quote their Permanent Account Number (PAN), while making an application for Purchase of Units. In case of joint holding, PAN details of all holders should be submitted. In case the application is on behalf of minor, PAN details of the Guardian must be submitted. Investors residing in the state of Sikkim are exempt from the mandatory requirement of PAN proof submission; however sufficient documentary evidence shall have to be submitted for verifying that they are residents of the State of Sikkim. Applications without the aforesaid details are liable to be rejected without any reference to the investors.

## VI. INVESTMENT DETAILS

Investors should indicate the Option for which the application is made. In case Investors wish to opt for both the Options, separate Application form will have to be filled. In case applications are received where option for investment is not selected the same will get rejected as prescribed in SID.

If the scheme name on the application form and on the payment instrument are different, the application will be processed and units allotted at applicable NAV of the scheme mentioned in the application / transaction slip duly signed by investor(s).

## VII. MODE OF PAYMENT

1. As per AMFI best practice guidelines on 'Risk mitigation process against third party cheques in mutual fund subscriptions', Edelweiss Mutual Fund shall not accept applications for subscriptions with third party payment instruments with effect from November 15, 2010. For further information please refer SAI.
2. Investors may make payment by cheque payable locally in the city where the application form is submitted at AMC/KFin Tech ISC's or electronic mode such as RTGS/NEFT directly to Mutual Fund Collection account.
3. The cheque should be drawn on any bank which is situated at and is a member/sub member of the bankers clearing house. Cheque drawn on the bank not participating in the clearing house will not be accepted.
4. Payment through Stock invest, outstation cheques and cash will not be accepted.
5. The cheque / demand draft should be crossed. Cheque should be in favor 'Edelweiss Nifty Next 50 ETF' and Account Payee Only.
6. Returned cheques will not be presented again for collection and the accompanying application will be rejected.
7. Single cheque for investments in multiple Schemes and multiple cheques for investments in Single Scheme will not be accepted.
8. In case of investment through electronic mode (RTGS/ Transfer letter), you are requested to contact the nearest AMC/KFin Tech ISC for the Bank Account Number to which the purchase/additional purchase amount is to be credited.
9. NRI / FII's  
Repatriation basis:- Payments by NRIs/ FIIs may be made by way of cheques drawn on non-resident external accounts payable at par and payable at the cities where the Investor Service Centers are located.  
Non-Repatriation basis:- NRIs investing on a non repatriable basis may do so by issuing cheques drawn on Non-Resident Ordinary (NRO) account payable at the cities where the Investor Service Centers are located.
10. In case of payment through electronic mode (RTGS/NEFT or Transfer Letter), need to provide the bank acknowledgement copy along with purchase application.

## VIII. NOMINATION DETAILS

The nomination details registered by the Investor(s) with its Depository Participant will be applicable for the investment in the Units of the Scheme.

## IX. PREVENTION OF MONEY LAUNDERING AND KNOW YOUR CUSTOMER (KYC)

With effect from 1st January, 2011, KYC (Know Your Customer) norms are mandatory for ALL investors for making investments in Mutual Funds, irrespective of the amount of investment.

Applications are liable to be rejected without any intimation to the applicants, if KYC requirement are not complied with/filed by all the applicants with the Depository Participant.

## X. Employee Unique Identification Number (EUIN):

SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of Mutual Fund products to quote the EUIN obtained by him/her from AMFI in the Application Form. EUIN, particularly in advisory transactions, would assist in addressing any instance of mis-selling even if the employee/relationship manager/sales person later leaves the employment of the distributor. Individual ARN holders including senior citizens distributing Mutual Fund products are also required to obtain and quote EUIN in the Application Form. Hence, if your investments are routed through a distributor please ensure that the EUIN is correctly filled up in the Application Form.

However, if your distributor has not given you any advice pertaining to the investment, the EUIN box may be left blank. In this case, you are required to provide a duly signed declaration to this effect. Distributors are advised to ensure that the sub broker affixes his/her ARN code in the column separately provided in addition to the current practice of affixing the internal code issued by the main ARN holder and the EUIN of the Sales Person (if any) in the EUIN space.

## XI. BENEFICIAL OWNERSHIP DETAILS:

Under the Prevention of Money Laundering Act, 2005 ("PMLA"), all intermediaries including mutual funds are required to obtain sufficient information from their clients in order to identify and verify the persons who beneficially own or control the account. SEBI circular dated January 24, 2013 on identification of Beneficial Ownership has prescribed a uniform approach to be followed for determination of beneficial owners. A 'Beneficial owner' is defined as a natural person/s who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted, which includes persons who exercise ultimate effective control over a legal person or arrangement.

All categories of investors except individuals, company listed on a stock exchange or majority owned subsidiary of such company, are requested to provide details about beneficial ownership to the Depository Participant where the demat account is held. The Fund reserves the right to reject applications/restrict further investments or seek

## INSTRUCTIONS TO INVESTORS FOR FILLING UP THE APPLICATION FORM

additional information from investors who have not provided the requisite information on beneficial ownership. In the event of change in beneficial ownership, investors are requested to immediately update the details with Depository Participant.

### XII. SIGNATURES:

The signature(s) should be in English or in any of the Indian languages specified in the eighth schedule of the constitution of India. Applications on behalf of minors should be signed by their Guardian. Thumb impressions must be attested by a Magistrate or a Notary Public or a Special Executive Magistrate under his/her official seal. Applications by minors should be signed by their guardians. In case of a Hindu Undivided Family (HUF), the Karta should sign on behalf of the HUF.

If the application form is signed by a Power of Attorney (PoA) holder, the form should be accompanied by a notarised photocopy of the PoA. Alternatively, the original PoA may be submitted, which will be returned after verification. If the PoA is not submitted with the application, the Application Form will be rejected. The POA should contain the signature of the investor (POA Donor) and the POA holder.

In case of corporates or any non-individual investors, a list of authorised signatories should be submitted along with Application form or in case of any change in the authorised signatory list, the AMC / Registrar must be notified within 7 days.

In case of application under POA or by a Non-Individual (i.e. Company, trust, society, partnership firm etc.) the relevant POA or the resolution should specifically provide for/authorize the POA holder/ authorized signatory to make application/ invest moneys on behalf of the investor.

### XIII. CONTINUOUS OFFER:

**On Stock Exchanges:** Investors can buy/sell units of the Scheme on a continuous basis in the normal market segment of National Stock Exchange of India Limited (NSE) / BSE Limited, or any other stock exchange where the Scheme will be listed, during the trading

hours like any other publicly traded stock at prices which are quoted on the stock exchanges in round lot of 1 unit and in multiples thereof.

**Directly with the Mutual Fund:** Authorised Participant(s)/ Investor(s) can subscribe/redeem the units of the Scheme directly with the Mutual Fund only in creation unit size and in multiples thereof. The subscription & redemption of units would be based on the portfolio deposit & cash component as defined by the fund for that respective business day. The Fund may allow cash purchases/ cash redemption of the units of the Scheme or by depositing basket of securities comprising the underlying index in Creation Unit Size by Authorised Participant(s)/ Investor(s).

Purchase/redemption request shall be made by such investors to the Fund whereupon the Fund shall arrange to buy/sell the underlying portfolio of securities on behalf of the investor. In case of Bonds / Securities bought and sold by AMC on behalf of the investor, the profit/loss due to buy/sell of Bonds / Securities and transaction handling charges/costs would be borne by investor.

Investors, other than Authorised Participants, can sell units in less than Creation Unit Size of the Scheme directly to the Mutual Fund without any exit load in the following cases:

- if the traded price of the ETF units is at a discount of more than 3% to the NAV for continuous 30 days; or
- if discount of bid price to applicable NAV is more than 3% over a period of 7 consecutive trading days; or
- if no quotes are available on exchange for 3 consecutive trading days; or
- when the total bid size on the exchange(s) is less than half of creation unit size daily, averaged over a period of 7 consecutive trading days.

Under these circumstances, investors, as specified above, can redeem units of the Scheme directly with the fund house without any exit load. In case of redemptions by NRIs, requisite TDS will be deducted from the respective redemption proceeds.
