Risk Profile of the Scheme

The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems, etc. Some of the risks are listed below:

1. Risks Associated with Fixed Income and Money Market Instruments:

- Interest rate risk:** Price of a fixed income instrument falls when the interest rates move up and vice-versa, which will affect the NAV accordingly.
- Spread risk:** Investments in corporate bonds are exposed to the risk of widening of the spread between corporate bonds and gilts. Prices of corporate bonds tend to fall if this spread widens which will affect the NAV of the Scheme accordingly.
- Credit risk or default risk:** Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest &/or principal payment obligations.
- Liquidity:** The Risk of non execution of sale/purchase order due to low volumes is liquidity risk.
- Reinvestment risk:** Interest rates may vary from time to time. The rate at which intermediate cash flows are reinvested may differ from the original interest rates on the security, which can affect the total earnings from the security.
- Performance Risk:** Performance of the Scheme may be impacted with changes in factors, which affect the capital market and in particular the debt market.
- Market risk:** Lower rated or unrated securities are more likely to react to developments affecting the market as they tend to be more sensitive to changes in economic conditions than higher rated securities.

2. Risk Factors associated with Underlying Scheme i.e. BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031:

- Lack of Vibrant Secondary Market for Units of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031:**
Although the Units of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 will be listed on the Stock Exchanges such as NSE, there can be no assurance that a vibrant secondary market for units of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 will be developed or maintained by the Authorised Participants.
- Halting of Trading in Units of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031:**
Trading in the Units of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 on NSE and BSE may be halted because of market conditions or for reasons that in view of NSE, BSE, SEBI or any other Regulatory authorities, trading in the units of the BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 is not advisable.
In addition, trading of the BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 are subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange and SEBI 'circuit filter' rules.
There can be no assurance that the requirements of NSE and BSE necessary to maintain the listing of the Units of the BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 will continue to be met or will remain unchanged.
- Lack of secondary market depth:**
In case of unit creation and unit redemption in BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031. BHARAT, Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 will have to either buy a basket of securities or sell a basket of securities. This requires an active secondary market for underlying securities at all points of time. A lack of depth in secondary market for underlying securities could hamper the efficient transaction in unit creation and unit redemption.

- iv. **Units of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 may trade at prices other than NAV:**
Depending on the demand-supply dynamic, of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 may either trade on the Stock Exchange above or below its NAV. This may give rise to arbitrage opportunities. However, the in-built mechanisms of unit creation and unit redemption in the form of Cash or in-kind is designed to reduce the arbitrage opportunity for market participants.
- v. **Regulatory Risk:**
Any changes in Regulations by SEBI / RBI / Stock Exchange / GOI / and other decision makers may hamper the ability of the market participants in trading to arbitrage resulting into wider premium/discount to NAV.
- vi. **Asset Class Risk:**
The returns from the types of Securities in which BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 invests may under-perform returns of general Securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison of Securities markets.
- vii. **Risk of Investment Strategy**
As units of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 would be primarily investing in the Bonds of CPSE/CPSU/CPFI or any other eligible entities, any government policy which will have an impact on central public sector enterprises, including any change in the disinvestment policy of the government, could impact the price of the underlying assets. This may have negative impact on the performance of the Scheme.
- viii. **Risk of Credit Rating changes**
It is understood that most of the CPSEs securities' higher credit rating is due to government ownership and implied government support. Any potential change in government control, shareholding pattern, market perception, corporate action etc., could result in potential downgrade of credit rating of the Issuers. This may have negative impact on the performance of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031.
- ix. **Risk of Investment in eligible securities**
The Scheme objective of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 is to invest in CPSEs securities as defined in the Index. BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 will invest in the securities predominantly through private placement route. These securities are generally auctioned on Electronic Bidding Platforms (EBP) in anonymous manner through competitive bidding. It is quite possible that the BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 may not be able to subscribe to these securities in sufficient quantities. This may result in sub-optimal asset allocation until the next bidding takes place.
- x. **Risk of variation in asset allocation as compared to the Index**
BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 intends to accept "in-kind" unit creation request from investors. The criteria for securities eligible for "in-kind" subscription has been defined in this document. It is possible that the "in-kind" subscription may result in variation in asset allocation as compared to the Index asset allocation.
- xi. **Risk of sovereign rating change**
The valuation of the CPSEs securities is based on the shape of the sovereign bond yield curve. The level of sovereign bonds are, apart from other factors, dependent on the sovereign rating of India by global Credit Rating Agencies. Any potential change in India's sovereign credit rating may have direct impact on the levels of sovereign bonds which in turn may have impact on the CPSEs securities.
- xii. **Risk of higher supply of CPSEs securities**
There has been an increase in total issuances of CPSEs securities in last 3 years. This has resulted in "crowding out effect" in the corporate bond market. As a result, credit spreads of certain CPSEs issuers with higher supply have widened as compare to other CPSEs issuers. This has also resulted in higher concentration for certain CPSEs issuer resulting in lack of appetite. Any incremental issuance from these CPSEs is likely to be met with lukewarm response from the investors, resulting in further widening of credit spreads.
- xiii. **Lack of supply of eligible securities with desired maturity**
The target maturity bond ETF structure has a pre-defined maturity date. This necessitate investment in eligible securities maturing within 3 months before the maturity date of the Scheme. Any decline in potential supply of eligible securities maturing within 3 months before the maturity date of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 may expose the Scheme to the reinvestment risk or investing in lower yielding T-bills / TREPS in the maturing year of the BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031. This may be detrimental to the investor interest.
- xiv. **Increase in supply of Tax-free bonds from CPSEs Issuers**
The target maturity bond ETF structure is designed to provide investor with long-term fixed income asset allocation to high qualities CPSEs with better tax-adjusted returns in the current interest rate environment. Any potential increase in supply of Tax-free bonds from CPSEs issuer may adversely impact the demand and future growth of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031.
- xv. **Risk of divergence in credit rating of BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 and the Index**
BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 intends to invest in AAA rated CPSEs entities. Any potential credit rating downgrade will necessitate the Scheme to sell bonds of downgraded CPSEs entities at market level and invest in new AAA rated CPSEs entities. This exercise is dependent on the secondary market liquidity in affected CPSEs entities. In case if the BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 is unable to liquidate these bonds in the open market, this will result in divergence in the credit rating composition between the BHARAT Bond ETF – April 2025 / BHARAT Bond ETF – April 2031 and the Index.
- xvi. **Risk of disinvestment / privatization of invested CPSE entities**
The GOI has recently made several announcements regarding their intentions to either disinvest full or part of their holdings in several CPSE entities. In case if a CPSE entity, which is part of the portfolio, is privatized, it will result in exclusion from the Index. The Scheme will also be required to exit their positions at the prevailing market levels and reinvest the proceeds in CPSE entities at prevailing market levels. This may result in untoward volatility and undesirable outcome.
- 3. Risks associated with investing in Tri Party Repo through CCIL (TREPS):**
Risk of exposure in the Triparty Repo settlement Segment provided by CCIL emanates mainly on two counts -
- Risk of failure by a lender to meet its obligations to make funds available or by a borrower to accept funds by providing adequate security at the settlement of the original trade of lending and borrowing under Triparty Repo transaction.
 - Risk of default by a borrower in repayment.

SEBI circular dated January 24, 2013 on identification of Beneficial Ownership has prescribed a uniform approach to be followed for determination of beneficial owners. XVI. FATCA DETAILS:

The Foreign Account Tax Compliance Act is a United States (US) federal law, aimed at prevention of tax evasion by US Citizens and Residents ("US Persons") through use of offshore accounts. The FATCA provisions were included in the HIRE Act enacted by the US legislature. FATCA is designed to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments.

As per SEBI circular no. CIR/MIRSD/2/2014 dated June 30, 2014, the Government of India and the US have reached an agreement in substance on the terms of an Inter-Governmental Agreement ("IGA") to implement the FATCA provisions, which have become globally applicable from July 1, 2014. FATCA requires enhancement of due diligence processes by the Foreign Financial Institutions ("FFI") so as to enable identification of US reportable accounts.

The Fund/Edelweiss Asset Management Limited ("the AMC") are likely to be classified as a FFI under the FATCA provisions, in which case the Fund /the AMC would be required, from time to time, to (i) undertake necessary due diligence process by collecting information/ documentary evidence of the US/non US status of the investors; (ii) disclose/report information as far as may be legally permitted about the holdings/investment returns pertaining to reportable accounts to the US Internal Revenue Service and/or such Indian authorities as may be specified under FATCA or other applicable laws and (iii) carry out such other activities as prescribed under the FATCA provisions, as amended from time to time.

FATCA due diligence will have to be directed at each investor/unit holder (including joint investors) and on being identified as a reportable person/specified US person, all the folios will be reported. Further, in case of folio with joint investors, the entire account value of investment portfolio will be attributable under each such reportable person. Investors/Unit holders would therefore be required to furnish such information to the Fund/AMC, from time to time, in order to comply with the reporting requirements stated in the IGA and/or circulars/guidelines issued by SEBI/AMFI in this regard.

The impact of FATCA is relevant not only at the point of on-boarding of the investors but also throughout the life cycle of the investor account / folio with the Fund. Hence investor(s) should immediately intimate the Fund/AMC, in case of any change in the FATCA related information provided by them at the time of initial subscription.

The Fund/AMC reserves the right to reject any application or compulsorily redeem the units held directly or beneficially in case the applicant/investor fails to furnish the relevant information and/or documentation or is found to be holding units in contravention of the FATCA provisions.

Investors are advised to consult their tax advisors to understand the FATCA requirements and its implications in relation to their investment.

XVII. Central KYC Records Registry (CKYCR):

The Government of India vide their Notification dated November 26, 2015 authorised the Central Registry of Securitisation Asset Reconstruction and Security Interest of India (CERSAI) to act as and to perform the functions of the Central KYC Records Registry under the said rules, including receiving, storing, safeguarding and retrieving the KYC records under the Prevention of Money Laundering Act, 2002. SEBI required all the market intermediaries to update/upload KYC details of the new customer/investors (not KYC-KRA compliant) on CERSAI's online platform. CERSAI is a centralized repository of KYC records of customers/investors in the financial sector with uniform KYC norms and inter-usability of the KYC records across the sector with an objective to reduce the burden of producing KYC documents and getting those verified every time when the customer/investors creates a new relationship with a financial entity. Central KYC (CKYC) will store all the customer/investor information at one central server that is accessible to all the financial institutions. After opening a KYC account under the CKYC, customer/investor will get a 14-digit identification number ("KYC Number") and that the same may be quoted by the investor wanting to invest in mutual funds. Further, the Mutual Fund/AMC is required to check whether the PAN of the investor has been updated in CKYCR. In case the PAN has not been updated, the Mutual Fund/AMC shall collect a self certified copy of the investor's PAN card and update/upload the same in CKYCR. In case the Investor uses the old KRA KYC form for updating of any KYC information, such investor shall be required to provide additional/missing information only by using the supplementary CKYC form or fill the new "CKYC form".
